PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL

1. Public Service

- (C)
- a. Public Telephone Service (Public Service) is a service made available in a public or semi-public place for the convenience and necessity of the general public on a pay per use basis. The service may be installed by the Telephone Company on its own initiative or in response to an appropriate request at locations suitable and necessary for furnishing service to the public. Telephone instruments and service enhancing facilities may be furnished by the Telephone Company or Independent Payphone Providers (IPP's). An IPP is any person or organization (including a nonregulated entity of a local telephone company) that make telephones available to the public (transient and institutionalized) to place calls. Telephone instruments furnished by the Telephone Company are accounted for on a nonregulated basis.
 - b. Public service is installed primarily for the use of the transient public to make outgoing calls. Any use of the service by occupants of the premises in/on which the service is located is considered incidental to the primary purpose.
 - c. Public service arranged for placing outgoing calls only may be provided upon the request of the property owner, commercial tenant, subscriber to the public access line, or the municipality. The determining factors associated with whether outgoing service only will be provided include the technical requirements of the instruments, the technical and economic feasibility of providing the service and the safety and security issues involved.

Public Service limited to outgoing calls only must be clearly marked.
 - d. Public Service includes access line service for pay telephones (instruments that accept coins), Coinless telephone service (instruments that are not equipped to accept coins and may only be used for originating credit card, collect, or third number calls), and Inmate Service (restricted calling provided at penal institutions and other institutions of confinement).

Note: Effective with the approval of this filing Semi-Public Service is grandfathered and will be eliminated June 1, 1997. Existing customers must change to a new service by June 1, 1997.

Material previously appearing on this page now appears on page 1.1.

Issued: January 15, 1997

Effective: April 15, 1997

PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL

1. Public Service (See Note 1)

- d. When local calls are made from a coinless telephone provided by the Telephone Company, the rates in paragraph B.1.a.(1) of this section of the tariff apply. (See Note 2)

When toll calls are made, the rate in Section 16, Paragraph B.1.a.(2) of this Tariff applies.

- e. Additional station sets, or directory listings are not provided with Public Service.
- f. For each location the Telephone Company furnishes and displays such of its standard signs as are necessary to properly advertise the service.
- g. Public service may be arranged by the Telephone Company to terminate after a certain amount of conversation time on a local call. Conversation time can be extended by depositing the appropriate amount for a local call. The limitation of conversation time is provided at the option of the Telephone Company but in conjunction with the customer where such limitation is necessary to preserve the security and the orderly management of public telephone service at that location. Any actual limitation of conversation time will be spelled out under local messages in Paragraph B.1.a.(1) of this tariff.

Note 1: Effective with the approval of this filing Semi-Public Service is grandfathered and will be eliminated June 1, 1997. Existing customers must change to a new service by June 1, 1997.

Note 2: Applies only if the service is provided as a regulated service by the Telephone Company. All end user local message and directory assistance charges for public pay telephone services will be deregulated pursuant to orders in the FCC's CC Docket No. 96-128.

PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL (Continued)

2. Semi-Public Service (See Note)

(C)

- a. Semi-public service, a form of customer exchange service, is furnished only in locations which, in the judgment of the Telephone Company, are reasonably accessible to the public. Semi-public service is not intended as a substitute for other services or as a means of providing an alternative service at a lower charge. Semi-public service is furnished if the nature and amount of originating usage indicates that it is suited to meet requirements at the following types of locations, and at the option of the Telephone Company:
- (1) At locations where, in the opinion of the Telephone Company, the installation of a public service is not warranted but where there is an appreciable demand for service on the part of others than the customer.
 - (2) At locations where there is a collective use of the service by a relatively stable body of guests, members, employees or occupants.
 - (3) At any location where the demand for service is for a combination of transient and customer usage.
- b. Semi-public service is furnished only on an individual line basis. Coin collecting devices are provided.
- c. At the request of the customer, semi-public station sets may be arranged for placing outgoing calls only, when in the judgment of the Telephone Company, the furnishing of such service is warranted.
- d. Semi-public service may be arranged by the Telephone Company to terminate after a certain amount of conversation time on a local call. Conversation time can be extended by depositing the appropriate amount for a local call. The limitation of conversation time is provided at the option of the Telephone Company but in conjunction with the customer where such limitation is necessary to preserve the security and the orderly management of public telephone service at that location. Any actual limitation of conversation time will be spelled out under local messages in Paragraph B.1.a.(1) of this tariff.
- e. Listings in the directory are provided in connection with semi-public service as regularly provided with nonresidence service.
- f. Collections are made at intervals determined by receipts.

Note: Effective with the approval of this filing Semi-Public Service is grandfathered and will be eliminated June 1, 1997. Existing customers must change to a new service by June 1, 1997.

PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL (Continued)

3. Access Line Service for Customer-Provided Public Telephones

a. General

- (1) Access line service for customer-provided public telephones is an exchange service provided at the request of a customer for telecommunications use at locations accessible to the general public.
- (2) This access line service is provided for use with customer provided non coin operated public telephones or customer provided coin operated public telephones and is available where facilities permit.
- (3) This access line service is provided on a nonresidence flat rate basis as shown in paragraph B. of this section. (C)
- (4) Directory listings may be provided for coin-operated customer provided public telephones under the regulations set forth in Section 6 of this tariff for nonresidence lines. (C)
- (5) Customer-provided public telephones may not be attached to other types of access lines.
- (6) Access line service for customer-provided public telephones can not be included on accounts containing other classes of service. A separate account is required for this offering at each location.
- (7) (D)
- (8) Access line service associated with Customer-Provided Public telephones may subscribe to the optional screening features described in Section 14 of this tariff.
- (9) This service may not be suspended at a reduced rate.
- (10) The operator can not perform coin collecting functions on customer provided coin operated service unless the customer subscribes to an access line service setup to provide true coin-line service.

PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL (Continued)

3. Access Line Service for Customer-Provided Public Telephones (Continued) (C)
- a. General (Continued)
- (11) This service shall not be connected behind a PBX. (N)
- (12) Coin only customer-provided public telephones that only provide access to the local network and do not have a separate approved tariff on file with the commission shall only charge the same operator payphone rate as the Telephone Company. (N)
- b. Responsibility of the Customer
- (1) The customer shall be responsible for the installation, operation and maintenance of customer-provided public telephones used in connection with this service. (C)
- (2) The Telephone Company is not responsible for refunds of coins deposited in customer-provided coin operated public telephones. (T)
- (3) The customer shall be responsible for the payment of a Maintenance of Service Charge as set forth in Section 2 of this tariff for visits by a Telephone Company employee to the customer's premises when a service difficulty or trouble report results from the use of a customer-provided public telephone. (C)
- (4) The customer shall be responsible for any and all toll charges billed to the customer's account.
- (5) Customer-provided public telephones must be registered and connected to the telecommunications network in compliance with Part 68 of the FCC's Registration Program. (C)
- (6) The customer shall cause to be prominently displayed on each customer provided public telephone used in connection with this service the name, address, and telephone number of the person or entity responsible for such instrument, instructions for the use of such instrument and the cost free procedure for reporting service difficulties and obtaining customer refunds. PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL (Continued)

4. Telephone Company Provided Inmate Service (See Note 1 and Note 2) (C)

- a. Telephone Company Provided Inmate Service is a special type of Public Telephone service which may be provided on the premises of penal, correctional, mental or other institutions where persons are incarcerated, and drug rehabilitation centers. The service is provided at the option of the Telephone Company but in conjunction with the institution for the exclusive use of inmates confined within the institution and participating in an institutionally approved telephone program.

Where necessary to preserve the security and orderly management of the institution and to protect the public, the terms and conditions under which the service is provided will accommodate (to the extent legally and technically possible) the requirements of the institution administrator. The institution administrator is the executive officer, individual or group of individuals designated by the institution to coordinate this service with the Telephone Company.

- b. Telephone Company Provided Inmate Service utilizes a non-coin operated telephone.
- c. Telephone Company Provided Inmate Service, or any individual feature associated with the service, will only be offered where Telephone Company facilities permit and it is technically feasible to provide the service.
- d. Telephone Company Provided Inmate Service allows the caller to place only originating, collect local and collect toll calls to telephone numbers in the North American Dialing Plan.
- e. All other traffic, including calls to Telephone Company numbers, such as repair service, Directory Assistance, INWATS numbers, 900/700 "Dial-IT" type numbers and public emergency service numbers such as 911, is blocked.

Note 1: Effective with the approval of this filing Telephone Company Provided Inmate Service is grandfathered and eliminated.

Note 2: Applies only if the service is provided as a regulated service by the Telephone Company. All end user local message and directory assistance charges for public pay telephone services will be deregulated pursuant to orders in the FCC's CC Docket No. 96-128.

PUBLIC AND SEMI-PUBLIC SERVICE

A. GENERAL (Continued)

4. Telephone Company Provided Inmate Service (Continued)

- f. Local messages will be billed at the rate set forth in paragraph B.1.a (1)(c) following in this tariff. Toll messages are charged at the established toll rates, including the appropriate operator handled charge, in the appropriate toll tariff.
- g. Directory listings are not provided with Telephone Company Provided Inmate Service.
- h. Telephone Company Provided Inmate Service telephone locations will be furnished with white and yellow page directories at the institution's option.
- i. The Telephone Company reserves the right to deny or terminate Telephone Company Provided Inmate Service if unsatisfactory revenues or collection experiences are indicated.
- j. Telephone Company Provided Inmate Service may be arranged by the Telephone Company or by the institution administrator to terminate calls after a certain amount of conversation time (Call Timing) or, in the case of an emergency, in accordance with any Rules or Regulations of the Commission. The Telephone Company will not provide credit or equivalent service to the called or calling parties for such calls.

The Telephone Company reserves the right to allow or deny call timing on an individual institution basis.

- k. The Telephone Company will provide the following additional optional features as well as administrative features and services to control the Telephone Company Provided Inmate Calling Service. These services will be provided subject to availability and solely at the Telephone Company's discretion. (C)
(C)
 - (1) Provide the institution administrator the ability to limit individual inmate calls to a list of pre-approved telephone numbers.
 - (2) Provide the institution administrator the ability to block access to certain telephone numbers. Each inmate could have a different list of blocked telephone numbers.

4. Telephone Company Provided Inmate Service (Continued)

- k. The Telephone Company will provide the following additional optional features as well as administrative features and services to control the Telephone Company Provided Inmate Calling Service. These services will be provided subject to availability and solely at the Telephone Company's discretion: (Continued) (C)
(C)

- (3) Provide to the institution administrator, at the institution administrator's request, call detail information, such as date and time of calls, duration of calls, and called and calling telephone numbers. This information may be furnished to the institution's administrator where such information is judged appropriate in preventing or identifying abuse or unlawful use of service; and where the institution's administrator determines that the provision of such information is not in violation of any federal, state or local laws, regulations or orders. Call detail record storage, sorting and processing will be the responsibility of the institution.

The institution will be responsible for obtaining all required approval and posting notices as required in order to receive the call detail information and to advise the inmates of such possibilities. The institution will be responsible for notifying the users of Telephone Company Provided Inmate Service that the institution may receive and analyze call detail information, and that the calls will be timed.

- (4) The institution administrator may assign Inmate Personal Identification Numbers (IPIN) and restrict or limit inmate calling to the use of approved IPINs.
- (5) Where technically possible and at the Telephone Company's discretion, Telephone Company Provided Inmate Service may be equipped to detect three-way conference calling. Where three-way conference calling is detected, the call may be disconnected. No credit will be given if such call is disconnected.
- (6) A periodic announcement may be provided on inmate calls to indicate that the call is being made from an institution.
- l. Other services will be provided as they become available if they add to the administration of the service.

PUBLIC AND SEMI-PUBLIC SERVICE

B. RATES AND CHARGES

1. Public and Semi-Public Service (See Note 1) (C)

a. Local and toll messages from public and semi-public service are charged for as follows:

(1) Local Messages

(a) Except as otherwise provided in (2) following the local message charge is \$.25. (See Note 2) (C)

(b) Whenever the assistance of a live or automated Telephone and Company operator is required because of the calling party's request for special billing (except for inmate service) of the local message charge, such local message charge, an additional charge of \$1.00 will be added to the local message charge (except for an inmate service call.)

(c) Whenever the assistance of a Telephone Company operator is required because of the calling party's request for special billing of the local message charge for an inmate service call, such local message charge is \$1.50. (See Note 2) (C)

(2) Toll Messages

Toll messages are charged for at the established toll rates in the appropriate toll tariff.

b. The local service area for public and semi-public service in a given exchange is the local service area specified for customer service in the Exchange Rate Tariff for that exchange. In those exchanges where both local area customer service and extended area customer service are offered, the local service area for public and semi-public service in a given exchange is the local service area specified for extended area service in the Exchange Rate Tariff for that exchange.

c. No monthly rate or guarantee is required in connection with public service.

d. The customer to semi-public service shall pay a flat monthly charge as specified in the Exchange Rate Tariff for that exchange.

e. (Reserved)

Note 1: Effective with the approval of this filing Semi-Public Service is grandfathered and will be eliminated June 1, 1997. Existing customers must change to a new service by June 1, 1997.

Note 2: Applies only if the service is provided as a regulated service by the Telephone Company. All end user local message and directory assistance charges for public pay telephone services will be deregulated pursuant to orders in the FCC's CC docket No. 96-128.

B. RATES AND CHARGES (Continued)

1. Public and Semi-Public Service (Continued) (See Note 1 and Note 2)

(C)

f. In case of theft or attempted theft, the customer to semi-public service assumes the risk of monies stolen from the collection device and in settlement thereof must reimburse the Telephone Company for all charges for toll service up to the time of the theft and pay the flat rate monthly charge as if there had been no break in service. The Telephone Company will assume the expense arising from the loss or damage to the equipment, but may refuse to restore service at locations involving unreasonable risk unless the customer executes an agreement to indemnify the Company against loss from subsequent thefts or attempts thefts.

g. A Telephone Company station set (telephone) equipped with a coin collecting device is required with semi-public service subject to the following rates and charges.

(1) Initial charges specified herein apply for initially providing a station set for use at a continuous property location.

(2) Subsequent charges specified herein apply in the following cases:

- (a) Changing type, style, or color of a coin station set.
- (b) Changing coin station sets from rotary dial to TOUCH-tone dial and vice versa.
- (c) When customer requests necessitate work be performed on the coin station set which does not require replacement of the set.

(3) Subsequent charges are not applicable when work is performed on a coin station set to add a feature that has an applicable initial charge and/or monthly rate.

(4) Coin station sets (See Note 2)

(C)

	Charge		Monthly Rate	USOC
	Initial	Subsequent		
Standard Coin Station Set - Rotary	(1)	\$ 56.90	(1)	CTT_E
Standard Coin Station Set - Touch-Tone	(1)	56.90	\$ 2.50	CTT_F
Panel Coin Station Set - Rotary	(1)	56.90	8.35	CTT_I
Panel Coin Station Set - Touch-Tone	(1)	56.90	11.35	CTT_H

Note: (1) Station set initial charge and monthly rate included in Semi-Public Exchange Access Line Charge - See Exchange Rate Tariff PSCK No. 1.

Note 1: Effective with the approval of this filing Semi-Public Service is grandfathered and will be eliminated June 1, 1997. Existing customers must change to a new service by June 1, 1997.
